XD XD

Serious trucks.™

DON'T JUST KEEP YOUR MINE RUNNING. Keep it running in the black.

A mine is a busy place. There's always a lot happening. But when you add Western Star to the mix, you keep things running smoothly. That's because the Western Star® XD platform is a heavy-duty line of trucks designed to help reduce downtime and increase productivity – at a price that makes even better sense.

In fact, whatever support vehicle you need, Western Star can fill the role with the factory customization and options to create the right vehicles for your operation. We have a history of building trucks that work as hard as the people who drive them. After all, of the things you pull out of your mine, your truck shouldn't be one of them.

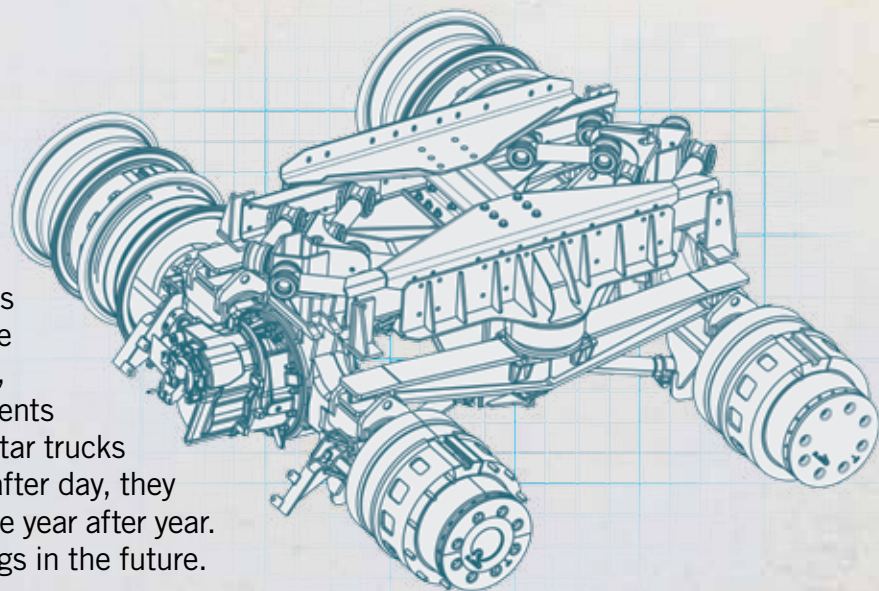

REPORTING FOR DUTY EVERY DAY.

Anyone tough enough to work a mine needs equipment that can back them up. Western Star® trucks do just that. Time and again, people have learned to count on the high-quality components and hand-crafted construction that make each one of these trucks a very valuable part of your team.

Strong and Simple.

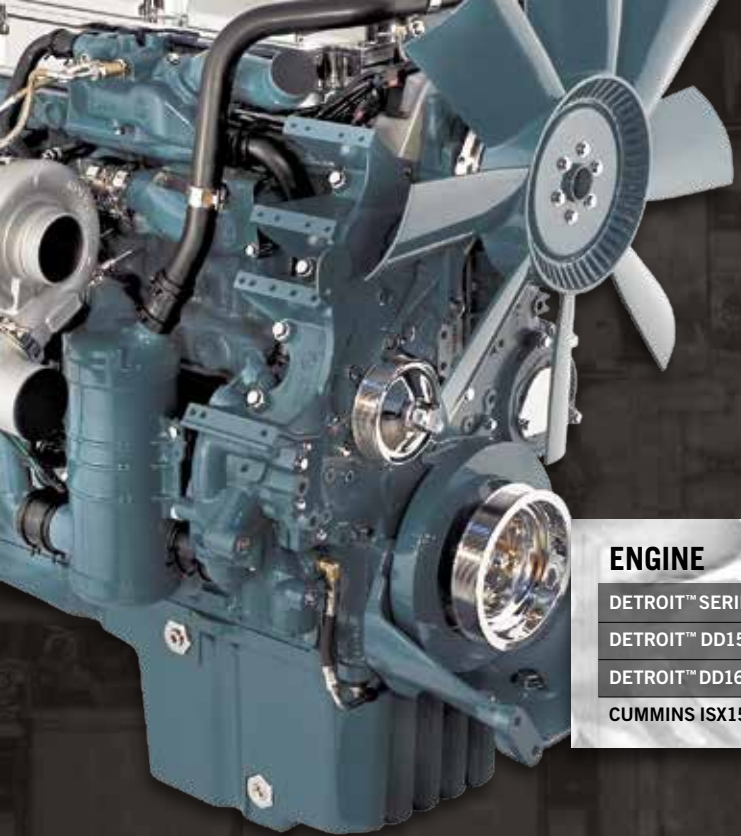

Our XD chassis is designed specifically for long-term duty cycles, enabling it to last far longer than a conventional chassis. It's built strong to take the wear and tear of the mine site, but offers easy maintenance with quick disconnect fenders that give you full access to the engine when you need it, and a safe place to check the oil when you don't. These features, along with durable, easy-access chassis components and low cost of operation, ensure that Western Star trucks not only stand up to the rigors of hard work day after day, they also stand up to the challenge of staying profitable year after year. Invest in Western Star today and count the savings in the future.

Stay in the hole.

Even a hard worker like Western Star needs some attention now and then. But not a lot. These trucks are designed to allow for easy maintenance and quick repairs, so they can get right back at it. With features like point-to-point wiring, copper brass radiators, and sturdy metal butterfly hoods that stand up to the pounding, you'll be up and running again in no time.

Tough jobs call for tough engines.

Every job is unique, which is why we offer a range of engine choices that fit every job out there. You set the specs and we deliver the brute strength you need to get the job done – including a Detroit™ Series 60® Tier III engine option designed solely for off-highway use – without DEF and EGR for simpler operation.

ENGINE	HORSEPOWER	TORQUE
DETROIT™ SERIES 60® TIER III	425-500	1475-1550lb.-ft.
DETROIT™ DD15™ TC	455-505	1550-1750lb.-ft.
DETROIT™ DD16®	475-600	1850-2050lb.-ft.
CUMMINS ISX15	400-600	1450-2050lb.-ft.

DETROIT SERIES 60 TIER III

DETROIT™

One truck. Many solutions.

In a mine, there are a lot of different jobs to be done, and if one piece goes down everything can come to a stop. The XD platform offers a number of chassis configurations to transport or support your equipment. From light-duty welding and rover units to heavy capacity fuel and lube trucks – all available with multiple options and full customization – the Western Star XD platform can support your production.

MAKING LONG DAYS SAFER AND MORE COMFORTABLE.

Both the Western Star interior and severe-duty steel cab are designed with safety in mind. The large cab and expansive windshield offers great visibility, and the dash can be factory-equipped for back-up cameras and back-up radar systems, letting drivers know what is around them at all times. Plus, you'll find a number of safety and comfort features like extra legroom, extra-thick floorpads, three-point entry for easier ingress, and click-to-start seat belts to make sure everyone is secure before the truck goes into action. Even passengers are well cared for with comfortable seating and plenty of cab room for gear storage, so no one gets left out in the cold.

NO TWO TRUCKS ARE EXACTLY ALIKE. UNLESS YOU WANT THEM THAT WAY.

With thousands of options, you can get a Star designed exactly to your specifications. It's true factory customization for every application, hand-built by our dedicated workforce. No matter the type of truck or type of job, Western Star provides the hard-working, reliable vehicles you need, all backed by a single factory warranty.

PARTS AND SERVICE, WHEN YOU NEED THEM.

Our goal is to keep you working. That's why your dealer has an experienced service center team and carries a wide selection of parts, with access to an even greater variety through our expanding global network of parts distribution centers. You get the support you need to grow – no matter where you do business.

YOUR KIND OF FINANCING PROGRAMS.

Being part of the Daimler Truck Financial family means we can get you into the right truck at the right price with rates that are competitive with anyone, including banks. Plus, because we know the transportation and vocational business, it's simple to get the financing you need – and into the Western Star you want.

Daimler Truck Financial

Financing that works for you.
